- To add a new recipient, select **Add Account/Recipient**. Once added, we'll save the information. Refer to the next page for help on required information.

Should I send my international wire in foreign currency or U.S. dollars?

Choose to send the international wire in a currency that matches your recipient's account. Generally, most recipients' bank accounts are in their local currency. If you do not know the currency of your recipient's account, ask the recipient or send in U.S. dollars.

Here are some of the benefits when sending international wires in **foreign currency**:

- \$0 outbound wire transfer fee if sent in foreign currency
- Get a competitive foreign exchange rate³ and know the exact amount sent to your recipient in their local currency
- Send wire transfers in 140+ currencies to over 200 countries

When deciding which currency option to choose, you should consider factors such as exchange rates³ and other fees that may affect the total cost or the amount available after the transfer.

² Mobile Banking requires that you download the Mobile Banking app and is only available for select mobile devices. Message and data rates may apply.

³ Exchange rates fluctuate, at times significantly, and you accept all risks that may result from such fluctuations. If we assign an exchange rate to your foreign exchange transaction, that rate will be determined by us in our sole discretion based upon such factors as we determine relevant, including, without limitation, market conditions, exchange rates charged by other parties, our desired rate of return, market risk, credit risk and other market, economic and business factors, and is subject to change at any time without notice. You acknowledge that exchange rates for retail and commercial transactions, and for transactions effected after regular business hours and on weekends, are different from the exchange rates for large inter-bank transactions effected during the business day, as may be reported in *The Wall Street Journal* or elsewhere. Exchange rates offered by other dealers or shown at other sources by us or other dealers (including online sources) may be different from our exchange rates. The exchange rate you are offered may be different from, and likely inferior to, the rate paid by us to acquire the underlying currency.

We provide all-in pricing for exchange rates. The price provided may include profit, fees, costs, charges or other markups as determined by us in our sole discretion. The level of the fee or markup may differ for each customer and may differ for the same customer depending on the method or venue used for transaction execution.

We disclaim any and all liability for our exchange rates, including without limitation direct, indirect or consequential loss, and any liability if our exchange rates are different from rates offered or reported by third parties, or offered by us at a different time, location, transaction amount, or involving a different payment media (including but not limited to bank-notes, checks, wire transfers, etc.).
